POLYESTER PLEATED CARTRIDGES

SPX SERIES

This filter cartridge is tested and certified by NSF International to NSF/ANSI Standard 42 for material requirements only and NSF/ANSI/CAN 61, NSF/ANSI 372.

COMPONENT

HYDROSCIENTIFIC™ SPX SERIES POLYESTER PLEATED CARTRIDGES

are manufactured from durable polyester to provide you with a superior pleated cartridge that is washable and reusable. The Polyester media is pleated around a Polypropylene core for added strength and the ends are immersed in a thermosetting Vinyl Plastisol which fuses the three components together forming a unified end cap and gasket. The cartridges are bacteria and chemical resistant and provide great dirt holding capacity to extend the time between cartridge change outs.

HYDROSCIENTIFIC™ SPX SERIES POLYESTER PLEATED CARTRIDGES

are made with 100% pure polypropylene and are free of surfactants, detergents and anti-static agents. SPX series filter cartridges do not impart any substances into water which are known to or can cause adverse health effects to humans. SPX Series Cartridges are NSF/ANSI Certified to Standard 42, NSF/ANSI/CAN 61 & 372, and comply with FDA CFR 21 guidelines.

This filter housing is tested and certified by NSF International to NSF/ANSI/CAN 61, NSF/ANSI 372

COMPONENT

HYDROSCIENTIFIC SCICLONE™ SERIES SS FILTER HOUSING provide an exceptional performance housing design that helps separate dense solids prior to water passing through the filter cartridge. This SCICLONIC™ design delivers extended filter life, low cost operation, increased dirt holding capacity and reduced maintenance costs.

HYDROSCIENTIFIC SCICLONE™ SERIES SS FILTER HOUSING come with Stainless Steel standpipes as a standard feature and through their SCICLONIC™ radial flow water entry, water enters the housing to create a cyclonic effect to prevent air entrapment and force water more effectively through the cartridges pleated filter media. The SC Series SCICLONIC™ Stainless Steel Filter Housings are NSF/ANSI/CAN61 & NSF/ANSI 372 certified.
